

Zhichen (Kevin) Xu

Software Engineer · Full-Stack Developer

Orlando, FL · 321-332-5472 · zhichenxuucf@gmail.com · linkedin.com/in/zhichenxu041697 · github.com/kevinxzc2020 · kevinxu.dev

SUMMARY

Recent UCF Computer Science graduate with hands-on experience in full-stack web development. Built and launched SenYu — an independent C2C marketplace — using the MERN stack, Stripe, Socket.IO, and the Anthropic Claude API. Open to any entry-level or junior role in software engineering, development, or related technical fields; prioritizing opportunities to learn, grow, and contribute meaningfully to a team.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, Java, C++
Frameworks	React 19, Node.js, Express 5, Flutter
Database & APIs	MongoDB / Mongoose, REST APIs, Stripe API, Socket.IO, Anthropic Claude SDK
Tools	Git, GitHub, Figma, Cloudinary, Vercel, Railway, Vite, Postman, Shopify

PROJECTS

SenYu Badminton Marketplace — Lead Developer · Independent Mar 2025 – Present

React 19 · Node.js / Express 5 · MongoDB · Stripe · Socket.IO · Claude AI · Cloudinary · senyubadminton.com

- Built the first US-focused C2C marketplace for secondhand badminton rackets — three trade modes (Free Trade, Stripe Checkout, Verified Trade), each with distinct order flows and lazy auto-confirmation logic at the API level. Four Stripe checkout paths including VIP subscription with a 50% fee rebate computed server-side at webhook time.
- 6 Claude-powered features (Anthropic Claude API): recommendations, listing quality scores (0–100), natural language search, negotiation hints, description generation, and admin dispute analysis.
- Real-time messaging via Socket.IO; admin panel with 14 routes (disputes, refunds, logistics, promo codes, site settings); 53 pages · 22 API files · 15 models · bilingual EN / Simplified Chinese.

Rostro Application — Front End Developer · UCF Team Project May – Dec 2022

Flutter · Android Studio · Figma · github.com/Face-Recognition-App-SD/frontend-Mobile

- Built Flutter front-end for facial recognition login — converted Figma designs into UI components and animations, integrated team-provided backend APIs, tested across Android versions. Senior Design Semi-Finalist.

HandyMan Application — Front End Developer · UCF Team Project Mar – May 2022

ReactJS · CSS · Node.js · github.com/NaimShaqqou/HandyMan-COP4331

- Built React front-end — login and email verification UI with inline validation, responsive layouts; integrated backend APIs provided by teammates.

Contact Management App — Front End Developer · UCF Team Jan – Mar 2022

HTML5 · CSS · JavaScript · github.com/MatthewMcK17/COP4331C-SmallProject

- Built simple contact management pages with HTML, CSS, and JavaScript; form validation and backend API integration.

EXPERIENCE

Operations Support & Data Specialist Jul 2025 – Present

3H Pharmaceuticals LLC · Orlando, FL

- Maintain and audit the company-wide ERP system, ensuring data integrity and operational accuracy across departments.
- Build internal documentation and reporting workflows; provide on-call technical support across hardware, software, and inventory systems.
- Designed and built the company's business website on Shopify (3h.life) — facility overview, services, and contact pages; handled layout, design, and Liquid template development.

EDUCATION

University of Central Florida (UCF) 2019 – 2022

B.S. Computer Science · Orlando, FL

Valencia Community College 2015 – 2018

A.A. Electrical & Computer Engineering · Orlando, FL
